

Key Features

- Steg is a luminaire family consisting of wall mounted, pendant, table and floor lamp options
- A complete product family retaining a core design language Influenced by the faceted design trend, the wall version allows for unique and personalized installations to be created by architects, designers and end users
- Tailored with hospitality in mind; suitable for restaurants, cafes, lounge spaces, reception areas, bars and hotels
- Amber white (2,700K) colour temperature provides an ambient lighting effect that's perfect for creating a relaxing environment (4,000K also available)
- 1 standard body colour: matte white (custom RAL colours available upon request)

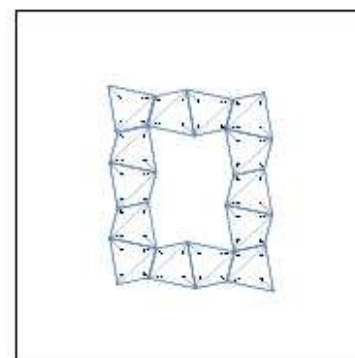

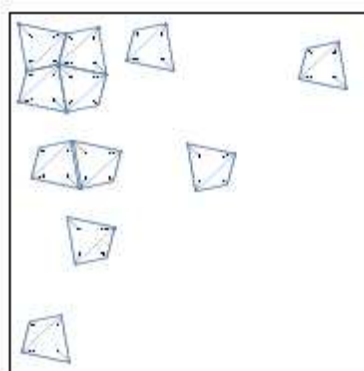

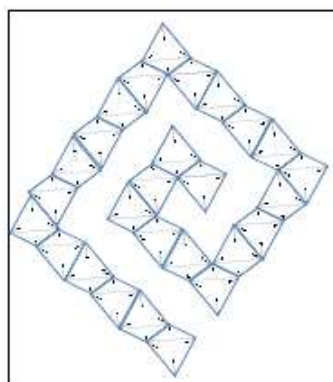

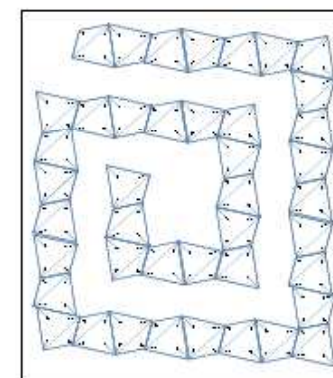

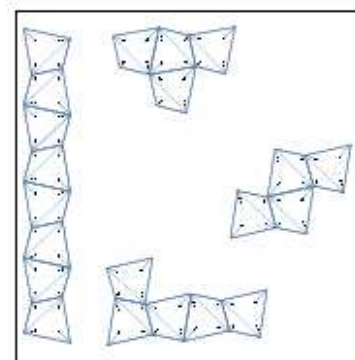

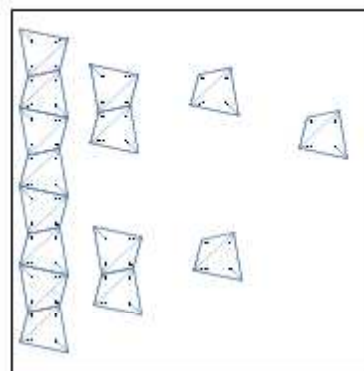

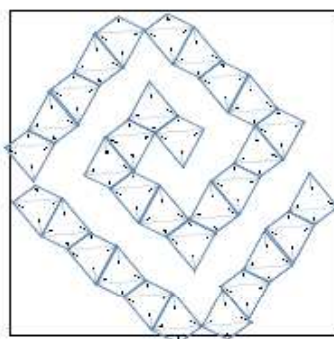

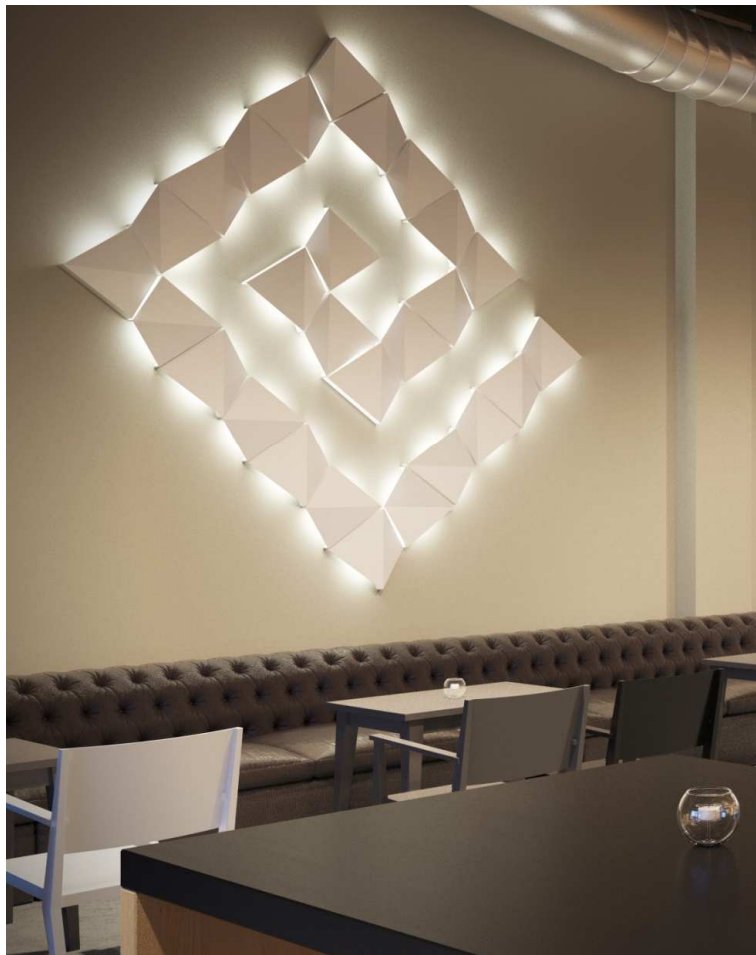

Wall Mounted

- Through its faceted design, it offers complete freedom to the end user through the ability to create infinite lighting features on a surface Start by specifying the desired LED Decor Hub and the equivalent sized wall trim
- Direct/indirect lighting
- Available in 2 sizes:
 - Small (260mm): 500lm in each direction from the LED Decor Hub
 - Large (400mm): 1,000lm in each direction from the LED Decor Hub
- 1 standard body colour: matte white
- Custom RAL colours available upon request

Tessellation Examples

Pendant

- Suspension height can be adjusted in the ceiling rose
- Supplied with 1.5m black cable
- Non-dimming as standard, can be offered as 1-10v Dimmable/DALI on request
- Colour braided cables available on request for a contemporary aesthetic look
- Also available in wall mounted, table and floor lamp versions

Table Lamp

- Based on around the 260mm trim size Touch sensitive slide-dimming as standard UK and EU plug versions available Also available in wall mounted, pendant and floor lamp versions

Floor Lamp

- Based around the 400mm trim size Touch sensitive dimming as standard UK and EU plug versions available Also available in wall mounted, pendant and table lamp versions

Features & Benefits

Feature	Benefit
Family of wall mounted, pendant, table and floor standing luminaires	Can be used throughout a building (e.g. hotel) to provide a different look to each area, but keep a consistency with its theme and design language.
Faceted design	Each end-user will want something different and unique to suit their branding, image and personal tastes. This may usually be achieved with a custom product. With the wall surface version of Steg we can provide this as a standard. By engaging with the architect, interior designer and lighting designer, we can create linear, vertical, square or 'maze'-type wall features (please see the 'Tessellation Examples' slide).
Matte white colour	Has a ceramic look to the surface, with the strength benefit of the polycarbonate material.
2,700K	Warmer colour temperatures are preferred in hospitality environments, promoting a relaxing environment. 2,700K replicates that of a classic 60W incandescent lamp used for over 100 years.
Direct & indirect lighting	Provides a soft and ambient lighting effect, perfect for hospitality or residential applications.

Ordering Guide

The Decor Hub – Overview

- The Decor Hub is the core of the Steg Wall range
- The modular LED engine has multiple cable output points for tessellation of 'Steg' and other future wall mount Decor Trims
- Changeable wall trims allow for a change in style - future trim designs will be compatible with the Decor Hub
- Hubs can be 'daisy chained' together in a master/slave configuration using quick access connectors
- Amber white (2,700K) or neutral white (4,000K) colour temperatures
- Direct / Indirect light source
- Available in 2 sizes:
 - Small Decor Hub (260mm): 470lm in each direction
 - Large Decor Hub (400mm): 830lm in each direction
- Available in non-dimmable as standard (1-10V analogue dimmable or DALI dimmable on request)
- Loop in/out capability thanks to its innovative design
- Uses latest mid-power LED chips Manufactured from robust polycarbonate mouldings IP20 (with trim)
- Ordered separately to be used with Steg Wall Mounted small or large trims

The Decor Hub – Overview

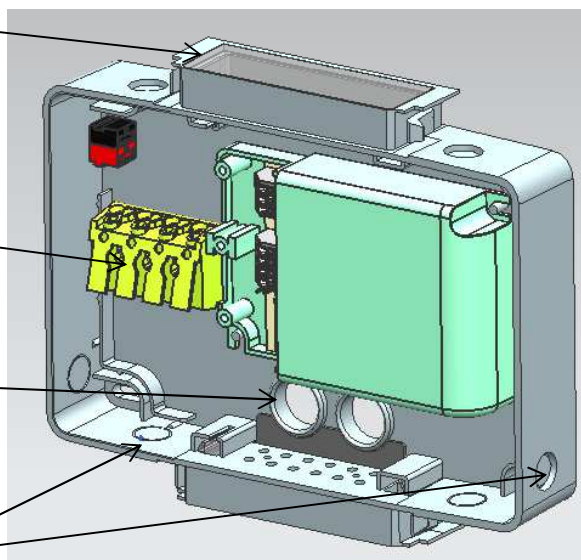

- Small Size (260): 170W x 140L x 30H
 - Not compatible with Besa/Mounting Boxes due to small size and driver location.
- Large Size (400): 170W x 240L x 38H
 - Compatible with most standard mounting boxes
- Non-dimming as standard. Can be offered as 1-10v Dimmable/DALI on request
